### IEEE CIS Student Branch Chapter - GHRCE SBC62361B

#### Start-O-thon Problem Statement(s) | Page 1/3

Dear Participants,

This document consists of themes for Start-O-Thon by IEEE CIS-SBC GHRCE.

#### How to Choose a Theme?

Decide your area of interest and jump on to that section. There are namely 8 domains identified for you: Healthcare, Sustainable Development, Agriculture, Transportation, Education, Retail Management, Cyber Security/Block Chain and Cryptography and Out of the Box.

**What is next?** Once you have decided the theme, give title to your project. Once done, register your team using the following link:

Good Luck!

Regards!
Team Start-O-Thon
IEEE CIS SBC – GHRCE (62361B)

# IEEE CIS Student Branch Chapter - GHRCE SBC62361B

### Start-O-thon Problem Statement(s) | Page 2/3

Domain	Problem ID	Themes	
Agriculture	A-01	Agroecological Approach (Integrated farming, Organic Farming, Agroforestry, Biodynamic Farming)	
Agriculture	A-02	Soil Management (Drainage, Type and texture, Cultivation)	
Agriculture	A-03	Weeds and Pests	
Agriculture	A-04	Livestock Husbandry	
Healthcare	H-01	covid	
Healthcare	H-02	Elderly care system	
Healthcare	H-03	Seizure alert system	
Healthcare	H-04	Smart clothes for blood pressure ppl.	
Healthcare	H-05	Public transportation	
Healthcare	H-06	Sanitation	
Sustainable development	S-01	Paperless Office	
Sustainable development	S-02	Geothermal developer	
Sustainable development	S-03	Recycle tech	
Transportation	T-01	Parking spots finder	
Transportation	T-02	Pedestrian safety	
Transportation	T-03	Vehicle safety	
Education	E-01	Raise classroom behavior issues in real-time	
Education	E-02	Course and university finder	

## IEEE CIS Student Branch Chapter - GHRCE SBC62361B

### Start-O-thon Problem Statement(s) | Page 3/3

Domain	Problem Id	Themes
Education	E-03	Smart Tutor
Education	E-04	Apps That Aid College Students
Retail Management	R-01	Digital Shopping Performance
Retail Management	R-02	Product QR Codes
Retail Management	R-03	AR/VR
Cyber Security/Block Chain and Cryptography	CBC-1	Fake Product Identification System
Cyber Security/Block Chain and Cryptography	CBC-2	Blockchain-Based Voting System.
Cyber Security/Block Chain and Cryptography	CBC-3	Secure processor technology
Cyber Security/Block Chain and Cryptography	CBC-4	Post-quantum cryptography
Cyber Security/Block Chain and Cryptography	CBC-5	Blockchain-based Patient Data Management System
Out of the box	ОВ	

Note:\* Participants are free to choose different themes from a specific domain other than specified in the above table.
